

January 20, 2015

**To: Mayor Bemrich and City Council**  
**From: Michelle Hefley, City Treasurer**  
**Subject: Public Hearing for Water Service Repair Assessment**

---

**ACTION: For vote Monday, January 26, 2015**

---

**Brief History**

The City of Fort Dodge requires that any water service leak be repaired in a timely manner to limit water loss and continue water conservation practices. When it is determined a property has a water service leak, the owner is immediately notified of the water leak and the necessity of having it repaired. This notification states that failure to have the proper repairs made by a licensed plumber will result in the City having the repairs made and billing the owner accordingly. It also states that failure to pay for these costs can result in these costs being assessed against the property. If the property owner has not paid the outstanding invoice, a public hearing is set to consider assessment for collection with property taxes.

**Analysis of Issue**

The Property owner has been notified of the public hearing by mail.

**Budget Impact**

There should be no negative impact upon the budget.

**Subcommittee or Commission Review / Recommendation**

Not applicable.

**Staff Conclusions / Recommendations:**

The City Treasurer recommends approving assessment at 907 10th Avenue SW for the amount of \$4,087.85.

**Implementation and Accountability:**

City Council should certify to the Webster County Treasurer this assessment for collection with property taxes **following a Public Hearing.**
